CANTON WOMEN'S ROUNDTABLE

The Canton Women's Roundtable was initiated by the Canton Y.W.C.A. in February, 1985. Social service agencies of Canton were invited to send representatives who worked with women and children to share the kinds of services offered, to research current needs of women and children that were not being met, to explore the possibilities of expanding existing services and/or combining efforts to offer cooperative support where needed.

Canton Women's Roundtable disbanded in 1997. During its tenure it provided an active forum through which members worked together to implement positive changes in the lives of women and children in the Canton community. The major achievement of Roundtable was the establishment of a spirit of collaboration that developed between community support services and their representatives. The HELP GUIDE was created by Roundtable members and continues to be published through collaboration.

The Help Guide is an educational tool designed to help people begin their search for assistance during times of crisis and change. Thank you to the donors listed below who make it possible for this directory to continue.
